

fuelService

NOW AVAILABLE IN CANADA

fuelService

Simple, easy refueling for
Drivers with Disabilities
thanks to the
fuelService App

Search in your app store for "fuelservice"

About fuelService

A new app to assist disabled drivers with refueling their vehicles has arrived in Canada! fuelService is currently being piloted by Shell Canada & Chevron across the country.

The app is free, available for iPhone and android, and easy to use.

It's a simple 3 step process:

1. Open the app and search for a station nearby for assistance;
2. Pick a station and fuelService will contact the station to ask if they can help;
3. If the station can help, they let the driver know when an attendant will be out.

Available at participating Shell and Chevron Stations
